

GigResource — Developer Feedback v1.1

Implementation Status & Testing Guide

For: Peter Zylstra / Khadija (PM) · **Re:** GigResource Platform — Developer Feedback v1.1 (June 2026) · **Base URL:** <https://gigresource.com>

How to use: Each point below links to the exact page to test it. Log in as a **Client** for client pages and a **Professional** for professional pages (the colour and menus differ by role).

Legend: **DONE** = live & testable now · **AT LAUNCH** = built, activates when an API account/key is provided · **DECISION** = business decision, not a dev task

Section 1 — Trust, Legal & Compliance

#	Item	Status	Where to test	What to check
1.1	Remove misleading metrics (25k+, 150k+, \$50M+)	DONE	/ and /register	No fake counts; value copy instead
1.2	Platform liability disclaimer	DONE	/platform-disclaimer + shown on /register	Dedicated page + onboarding notice (no 24/7, no guaranteed checks, no expert advice, no guaranteed outcomes)
1.3	DMCA takedown policy page	DONE	/dmca-policy	Policy text + takedown report form
1.3	Upload rights checkbox + logging	DONE	/professional/profile (change avatar/cover)	"I own the rights..." prompt before upload

Section 2 — Role-Based Access & Feature Placement

#	Item	Status	Where to test	What to check
2.1	Professional cannot create jobs	DONE	/professional/dashboard	No "Create New Job" in the Professional UI
2.1	Route protection (no job-posting via direct URL)	DONE	As a Professional, open a client job-create URL	Blocked / redirected
2.2	Bid Intelligence is Professional-only	DONE	/professional/bid-intelligence	Present for Professional, gone from Client

Section 3 — Broken Navigation & Routing

#	Item	Status	Where to test	What to check
3.1	Dedicated Notification Preferences page	DONE	/client/notifications · /professional/notifications	Standalone page (not a profile tab); Email + Push + SMS toggles
3.2	"Go to Full Calendar" → real calendar	DONE	/professional/calendar	Lands on the calendar (not My Gigs)
3.3	Unlabeled / dead button resolved	DONE	/professional/dashboard & /client/dashboard	Every button has a clear label/destination

Section 4 — Branding & Colour Consistency

#	Item	Status	Where to test	What to check
4.1	Client dashboard = Orange	DONE	/client/dashboard	Sidebar/accents are orange
4.1	Professional dashboard = Blue	DONE	/professional/dashboard	Sidebar/accents are blue
4.2	Standardised button colours + style guide	DONE	Repo: docs/button-style-guide.md	Role colour fixed, size varies; documented for the team

Section 5 — Missing Global Features

#	Item	Status	Where to test	What to check
5.1	Logout on both dashboards	DONE	Avatar dropdown + bottom of sidebar (both dashboards)	Log Out present in both spots
5.2	Dark / Light mode toggle + persists	DONE	Top bar near profile (both dashboards)	Toggle works; choice survives refresh

Section 6 — UI/UX & Layout

#	Item	Status	Where to test	What to check
6.1	Threads page spacing	DONE	/professional/threads	Comfortable padding, readable hierarchy
6.2	Alignment & grid consistency	DONE	Both dashboards	Cards/sections aligned consistently
6.3	Invisible divider/border fixed	DONE	Both dashboards	Section dividers are visible

Section 7 — Registration, Geo-Verification & Address

#	Item	Status	Where to test	What to check
7.1	Geo-restriction to 7 states	DONE	/register	Professional = state dropdown (MD/VA/DC/DE/PA/NJ/NY only); Client = zip, out-of-area rejected
7.2	Hybrid geolocation (session → HTML5 → IP)	AT LAUNCH	Backend: GeolocationService	Session + Cloudflare region live now; MaxMind IP + HTML5 activate at launch with a MaxMind key
7.3	Risk-based address verification	AT LAUNCH	/professional/profile → "Business Address Verification" card	Free filter live now (PO Box rejected); paid USPS/Google match activates at launch
7.4	API cost control (free filter, 2 paid attempts, lockout)	AT LAUNCH	Same card as 7.3	Free filter blocks PO Box/blank/junk with no API call; attempt-cap + lockout wired
7.5	PO Box / home-address edge cases	DONE / LAUNCH	Same card as 7.3	PO Box blocked free (live); home addresses flagged for review, not blocked

Section 8 — Pricing, Fees & Membership

#	Item	Status	Where to test	What to check
8.1	Open pricing questions (\$29/mo, competitors, fees)	DECISION	—	Business decision — needs your team's answers, not a code change
8.2	Influencer commission rates → 5 / 7.5 / 10 / 12.5%	DONE	/join-as-influencer	Tier rates reflect the reduced 5/7.5/10/12.5%
8.3	AI tools assigned to membership tiers	DONE	/app/membership-plans	Starter = Review Writer (10/mo); Professional = + Budget Allocator & Vendor Matchmaking (30/mo); Enterprise = all unlimited
8.3	AI tools (quota badges)	DONE	/ai-tools/review-writer , /budget-allocator , /vendor-matchmaking	Each shows a plan/quota badge

Summary

Status	Items
DONE & LIVE	Sections 1–6 in full, plus 7.1, 8.2 and 8.3
AT LAUNCH	7.2, 7.3, 7.4 (and the paid part of 7.5) — free protections already live; paid address-match + IP geolocation need a provider account
DECISION	8.1 — pricing questions for your team

Bottom line: every item that can be built without an external paid account is **done and testable now**. The remaining locked pieces only need (1) the USPS / Google / MaxMind accounts for §7.3–7.5, and (2) answers to the §8.1 pricing questions.
