03	Dashboard Home Pages	4 pages
04	Reusable Design Systems	9 pages

Conversion-critical pages — every visitor sees these first.

Landing / Home

D-01

<https://dashboard.gigresource.com/>

Main marketing page. Hero + value props + featured categories + how it works + testimonials + CTA.

Elements: Full-bleed wedding hero, search bar with category chips, trust pill, featured pro cards row, A-Z category browser, moments gallery, FAQ accordion, newsletter, dual CTAs (Start Planning · List Your Services).

Browse Professionals

D-02

<https://dashboard.gigresource.com/browse>

Searchable / filterable marketplace grid of all professionals.

Elements: Hero with mega search (keyword + city + button), advanced filter bar with dropdowns, active filter chips, category chip rail, grid/list view toggle, sort dropdown, pro cards (cover · avatar · badges · skills · rating · price · save heart · CTA), pagination.

Professional Profile

D-03

<https://dashboard.gigresource.com/pro/{user}>

Public profile of a single professional — the booking-decision page.

Elements: Cover banner, avatar overlap, name + verified check + headline, breadcrumb, sticky right sidebar (Top Rated seal · Satisfaction · Verified Credentials), About, Skills, Portfolio gallery, Reviews list, Similar pros row, mobile sticky "Request Quote" bar.

Events & Categories

D-04

<https://dashboard.gigresource.com/events-categories>

Alibaba-style mega category browser with audience toggle and advanced filters.

Elements: Hero + search, advanced filter (5 categories per audience with dropdown popovers), active chips, 9-category left rail with right showcase, sub-tile filter tabs (Popular/Top Rated/Newest/Trending), Top Services 4-col tiles, Event types section, CTA banner.

How It Works

D-05

<https://dashboard.gigresource.com/how-it-works>

Step-by-step walkthrough of platform for all 3 audiences.

Elements: Hero, sticky 8-step pill navigator, 8 numbered step panels (audience-color-coded), each with detail cards, stat tiles for commission section, final summary CTA.

About Us

D-06

<https://dashboard.gigresource.com/about-us>

Brand story, stats, team.

Elements: Wedding hero with stats bar overlay, mission story, values grid, team cards, journey timeline, big-number stat band, contact CTA.

Blog — List

D-07

<https://dashboard.gigresource.com/blog>

Article index with search + category filter + featured strip + grid.

Elements: Wedding decor hero with eyebrow + search bar, category pills, featured 3-col strip, blog grid (image · category · title · excerpt · meta · read more), pagination.

Blog — Post Detail

D-08

<https://dashboard.gigresource.com/blog/{slug}>

Single article reading view.

Elements: Magazine hero with featured image as banner, category pill, title + meta (author · date · read time · views), full article body styled, share bar, related posts row.

FAQ

D-09

<https://dashboard.gigresource.com/faq>

Searchable, category-filtered FAQ list.

Elements: Wedding reception hero, eyebrow + heading + search input, category pill filter, accordion FAQ items grouped by category, "Still have questions?" CTA card.

Join as Influencer

D-10

<https://dashboard.gigresource.com/join-as-influencer>

Recruit influencers for the referral program.

Elements: Couple-at-sunset hero with avatars cluster + trust stat, 4-step "How it works" cards, commission tier table, payout policy, sign-up CTA.

Policy Page (1 design — 4 uses)

D-11

<https://dashboard.gigresource.com/privacy-policy> · <https://dashboard.gigresource.com/ai-agreement> · <https://dashboard.gigresource.com/payment-policy> · <https://dashboard.gigresource.com/cancellation-policy>

Legal pages — single design template, content varies per policy.

Elements: Bridal-bouquet hero with eyebrow + icon + last-updated pill, long-form rich text body, optional auth-only e-signature box at bottom.

Pricing / Membership Plans

D-12

<https://dashboard.gigresource.com/app/membership-plans>

Conversion-critical: 3-tier comparison + contract length picker.

Elements: Three-tier comparison cards (Starter · Professional · Elite), feature checklist per tier, contract length tabs (6 / 12 / 18 months), 15% off badge on 18-month, "Most Popular" highlight, Stripe checkout CTA.

02 Authentication

3 pages

First-impression branded moments.

Login

D-13

<https://dashboard.gigresource.com/login>

Email + password sign-in. Split layout with testimonial carousel side.

Elements: Left form column (logo · welcome · email · password · show/hide toggle · remember-me · forgot · login button · reCAPTCHA · social proof footer), right testimonial carousel side with trust stats.

Register

D-14

<https://dashboard.gigresource.com/register>

Choose role tab (Client or Professional) then fill onboarding form.

Elements: Step indicator (Choose role → Create account → Get started), trust strip pill, role tabs, info card per role, form (name · email · password · confirm), reCAPTCHA, sign-up button, switch-to-login link.

Forgot / Reset Password (1 design)

D-15

<https://dashboard.gigresource.com/password/reset>

Email-input or new-password reset flow — same shell reused.

Elements: Centered card with input + primary button + back-to-login link. Two states: request reset / set new password (token-protected).

Welcome layout — one design per role.

Client Dashboard Home

D-16

<https://dashboard.gigresource.com/client/dashboard>

Overview of upcoming events, recent bookings, messages, suggested pros.

Elements: Top navbar (logo · search · notifications · theme toggle · role switcher · avatar), left sidebar with role-coloured icons, welcome banner, 4 stat cards, upcoming events list, recent bookings, recommended pros carousel, AI tools quick-access cards.

Professional Dashboard Home

D-17

<https://dashboard.gigresource.com/professional/dashboard>

Earnings overview, active proposals, recent gigs, messages, reviews.

Elements: Same navbar / sidebar shell as client (coral-themed icons), revenue stat cards, upcoming gigs strip, lead status counts (won/lost/pending), recent messages, ratings widget, AI Review Writer quick link.

Influencer Dashboard Home

D-18

<https://dashboard.gigresource.com/influencer/dashboard>

Performance overview for referral-program members.

Elements: Top stats (total earned · this month · pending payout · click count), unique referral link with copy button, recent referrals strip, tier-progress widget, marketing assets download.

Admin Dashboard Home

D-19

<https://dashboard.gigresource.com/dashboard>

Platform-wide stats and recent activity.

Elements: NobleUI top bar + collapsible sidebar (role-coloured icons), KPI cards (users · revenue · gigs · bookings), revenue chart, recent users, latest bookings, system alerts.

One design serves many pages — high leverage deliverables.

Profile Editor (1 design — 3 roles)

D-20

<https://dashboard.gigresource.com/client/profile> · <https://dashboard.gigresource.com/professional/profile> · <https://dashboard.gigresource.com/app/admin/profile>

Personal info, password, notifications. Reused by client / professional / admin.

Elements: Sidebar tab nav (Basic · Address · Company · Social · Notifications · Security · Account), avatar card with upload, form grid per tab, danger zone (account deletion), cover banner for pro variant.

Messages / Chat (1 design — 2 roles)

D-21

<https://dashboard.gigresource.com/client/messages> · <https://dashboard.gigresource.com/professional/messages>

Conversation list + thread view. Same UI for client and professional inbox.

Elements: Two-pane: conversation list left + thread right, unread badges, attachment chips, send composer with emoji + file upload, online status dots, search inbox.

AI Tools Shell (1 design — 3 tools)

D-22

<https://dashboard.gigresource.com/ai-tools/budget-allocator> · <https://dashboard.gigresource.com/ai-tools/vendor-matchmaking> · <https://dashboard.gigresource.com/ai-tools/review-writer>

Form + AI-result panel pattern reused across Budget Allocator, Vendor Matchmaking, and Review Writer.

Elements: Hero banner card, quota badge, form grid (event details / requirements), generate button, loading state, result panel with summary + breakdown, edit/copy/export actions, upgrade prompt if quota exhausted.

Professional Card (component)

D-23

used in [/browse](#) · [home](#) · [search results](#)

Tile pattern reused everywhere a pro appears in a list.

Elements: Cover image, badges (Top rated · Verified · New), save-heart button, avatar with online dot, name + verified check, headline, skill chips, rating + count, location, hourly price, View Profile CTA.

Booking Card (component)

D-24

used in [/client/bookings](#) · [/professional/dashboard](#) · [/app/bookings](#)

Reused across all dashboards wherever a booking appears.

Elements: Pro / client avatar, service name, event date + time, location, amount, status pill, primary action button, three-dot menu (cancel · message · review).

Membership Tier Card

D-25

used in [/app/membership-plans](#) · [landing pricing section](#)

Pricing-page tile for the 3-tier comparison.

Elements: Tier name + tagline, big monthly-equivalent price, contract toggle, feature checklist with check icons, "Most Popular" badge for middle tier, "Choose Plan" CTA, Elite-tier gold accent.

Empty State (1 design — reused)

D-26

used in [browse](#) · [bookings](#) · [messages](#) · [etc.](#)

Friendly no-results pattern for empty lists.

Elements: Centered icon in gradient pill, "Nothing here yet" headline, helpful body copy, 1-2 action CTAs (reset filters · explore categories).

Error Page Shell

D-27

[https://dashboard.gigresource.com/\(404](https://dashboard.gigresource.com/(404) · <https://dashboard.gigresource.com500> · <https://dashboard.gigresource.com403> · <https://dashboard.gigresource.com419> · <https://dashboard.gigresource.com429> · <https://dashboard.gigresource.com401> · <https://dashboard.gigresource.com503>)

Already built — just polish if desired. 7 variants share one shell.

Elements: Big emoji, eyebrow pill with error code, gradient title, tagline, primary + secondary CTAs (Back to Home · Browse). Per-code emoji + messaging variations.

Email Templates (1 master)

D-28

[transactional emails](#)

Master email shell for all transactional notifications.

Elements: Header with logo, hero block, body copy area, primary CTA button, footer with unsubscribe + legal links. Variants: welcome · booking confirmed · message received · payment receipt · review request · cancellation notice.
