Sections

v1.0

Last updated May 18, 2026

Table of Contents

01	Public Website	15 pages
02	Authentication	10 pages
03	Client Dashboard	16 pages
04	Professional Dashboard	10 pages
05	Influencer Dashboard	3 pages
06	Admin Dashboard	33 pages
07	Error Pages	7 pages
08	Appendix — design tokens & brand colours	reference

Pages anyone can visit without logging in. Marketing surface for the marketplace.

Landing / Home

WEB-01

<https://dashboard.gigresource.com/>

Main marketing page. Hero banner + value props + featured categories + how it works + testimonials + CTA.

Elements: Full-bleed wedding hero, search bar with category chips, trust pill, featured pro cards row, A-Z category browser, moments gallery, FAQ accordion, newsletter, dual CTAs (Start Planning · List Your Services).

Browse Professionals

WEB-02

<https://dashboard.gigresource.com/browse>

Searchable / filterable marketplace grid of all professionals.

Elements: Hero with mega search (keyword + city + button), 8-trigger advanced filter bar with dropdowns, active filter chips, category chip rail, grid/list view toggle, sort dropdown, pro cards (cover · avatar · badges · skills · rating · price · save heart · CTA), pagination.

Professional Detail

WEB-03

<https://dashboard.gigresource.com/pro/{user}>

Public profile of a single professional — the conversion page.

Elements: Cover banner, avatar overlap, name + verified check + headline, breadcrumb, sticky right sidebar (Top Rated seal · Satisfaction · Verified Credentials), About, Skills, Portfolio gallery, Reviews list, Similar pros row, mobile sticky "Request Quote" bar.

Events & Categories

WEB-04

<https://dashboard.gigresource.com/events-categories>

Alibaba-style mega category browser. Audience toggle + advanced filters + sub-tile mega panel + top services grid.

Elements: Hero + search, advanced filter (5 categories per audience with dropdown popovers), active chips, 9-category left rail with right showcase, sub-tile filter tabs (Popular/Top Rated/Newest/Trending), Top Services 4-col tiles, Event types section, CTA banner.

How It Works

WEB-05

<https://dashboard.gigresource.com/how-it-works>

Step-by-step walkthrough of platform for all 3 audiences.

Elements: Hero, sticky 8-step pill navigator, 8 numbered step panels (audience-color-coded), each with detail cards, stat tiles for commission section, final summary CTA.

About Us

WEB-06

<https://dashboard.gigresource.com/about-us>

Brand story, stats, team.

Elements: Wedding hero with stats bar overlay, mission story, values grid, team cards, journey timeline, big-number stat band, contact CTA.

Blog — List

WEB-07

<https://dashboard.gigresource.com/blog>

Article index with search + category filter + featured strip + grid.

Elements: Wedding decor hero with eyebrow + search bar, category pills, featured 3-col strip, blog grid (image · category · title · excerpt · meta · read more), pagination.

Blog — Post Detail

WEB-08

<https://dashboard.gigresource.com/blog/{slug}>

Single article reading view.

Elements: Magazine hero with featured image as banner, category pill, title + meta (author · date · read time · views), full article body styled, share bar, related posts row.

FAQ

WEB-09

<https://dashboard.gigresource.com/faq>

Searchable, category-filtered FAQ list.

Elements: Wedding reception hero, eyebrow + heading + search input, category pill filter, accordion FAQ items grouped by category, "Still have questions?" CTA card.

Join as Influencer

WEB-10

<https://dashboard.gigresource.com/join-as-influencer>

Recruit influencers for the referral program.

Elements: Couple-at-sunset hero with avatars cluster + trust stat, 4-step "How it works" cards, commission tier table, payout policy, sign-up CTA.

Privacy Policy

WEB-11

<https://dashboard.gigresource.com/privacy-policy>

Legal — privacy.

Elements: Bridal-bouquet hero with eyebrow + icon + last-updated pill, long-form rich text content, optional auth-only e-signature box at bottom.

AI Usage Agreement

WEB-12

<https://dashboard.gigresource.com/ai-agreement>

Legal — AI features.

Elements: Same hero shell as Privacy, content varies, e-signature box.

Payment Policy

WEB-13

<https://dashboard.gigresource.com/payment-policy>

Legal — payments.

Elements: Same hero shell, content varies.

Cancellation & Refund

WEB-14

<https://dashboard.gigresource.com/cancellation-policy>

Legal — cancellation rules.

Elements: Same hero shell, content varies. References \$4.99 cancellation fee.

Influencer Referral Land

WEB-15

<https://dashboard.gigresource.com/ref/{code}>

Landing page hit when someone clicks an influencer referral link.

Elements: Captures cookie + shows welcome + redirects to sign-up funnel.

Sign in, sign up, and password reset flows.

Login

AUTH-01

<https://dashboard.gigresource.com/login>

Email + password sign-in. Split layout with testimonial carousel side.

Elements: Left form column (logo · welcome · email · password · show/hide toggle · remember-me · forgot · login button · reCAPTCHA · social proof footer), right testimonial carousel side with trust stats.

Register — Role Picker

AUTH-02

<https://dashboard.gigresource.com/register>

Choose role tab (Client or Professional) before filling form.

Elements: Step indicator (Choose role → Create account → Get started), trust strip pill, role tabs, info card per role, form (name · email · password · confirm), reCAPTCHA, sign-up button, switch-to-login link.

Register — Client

AUTH-03

<https://dashboard.gigresource.com/register?role=client>

Same as above but client role pre-selected.

Elements: Identical to AUTH-02 with client tab active.

Register — Professional

AUTH-04

<https://dashboard.gigresource.com/register?role=supplier>

Same with supplier role pre-selected.

Elements: Identical to AUTH-02 with professional tab active.

Forgot Password

AUTH-05

<https://dashboard.gigresource.com/password/reset>

Email input → send reset link.

Elements: Centered card with email input + send button + back-to-login link.

Reset Password

AUTH-06

<https://dashboard.gigresource.com/password/reset/{token}>

New password + confirm.

Elements: Centered card with token-protected new password + confirm + submit.

Confirm Password

AUTH-07

<https://dashboard.gigresource.com/password/confirm>

Re-confirm password before sensitive action (e.g. account deletion).

Elements: Modal-style card with single password input + confirm button.

Account Restore

AUTH-08

<https://dashboard.gigresource.com/account/deletion/restore>

Restore a soft-deleted account within grace period.

Elements: Centered card with restore CTA + explanation + cancel link.

Reactivation Success

AUTH-09

<https://dashboard.gigresource.com/account/reactivation/success>

Success confirmation after reactivation.

Elements: Big checkmark, success message, return-to-dashboard CTA.

Reactivation Cancel

AUTH-10

<https://dashboard.gigresource.com/account/reactivation/cancel>

Cancellation confirmation.

Elements: Cancel-state messaging, "go to login" CTA.

Pages a logged-in event-planner / client uses to find and book professionals.

Dashboard Home

CLI-01

<https://dashboard.gigresource.com/client/dashboard>

Overview of upcoming events, recent bookings, messages, suggested pros.

Elements: Top navbar (logo · search · notifications · theme toggle · role switcher · avatar), left sidebar with role-coloured icons, welcome banner, 4 stat cards, upcoming events list, recent bookings, recommended pros carousel, AI tools quick-access cards.

My Events — List

CLI-02

<https://dashboard.gigresource.com/client/events>

List of all events created by this client.

Elements: Page header, "Create Event" button, status filter pills, event cards (title · date · category · status · actions menu), empty state.

Event Detail

CLI-03

<https://dashboard.gigresource.com/client/events/{id}>

Single event with bookings + messages tab.

Elements: Breadcrumb, event header (title · date · location · budget · status pill), tab strip (Overview · Bookings · Quotes · Documents), tab content panels.

My Bookings

CLI-04

<https://dashboard.gigresource.com/client/bookings>

All confirmed bookings list.

Elements: Filter strip (status · date range), booking cards with pro avatar + service + date + amount + actions, review-leaving modal trigger.

Messages — Inbox

CLI-05

<https://dashboard.gigresource.com/client/messages>

Conversation list with pros.

Elements: Two-pane: conversation list left + thread right, unread badges, attachment chips, send composer with emoji + file upload.

Message Thread

CLI-06

<https://dashboard.gigresource.com/client/messages/{id}>

Single conversation view.

Elements: Same as inbox but thread-focused, with pro card sidebar.

AI Budget Allocator

CLI-07

<https://dashboard.gigresource.com/ai-tools/budget-allocator>

Enter event details → AI breaks down budget by category.

Elements: Hero banner card, quota badge, form (event type · budget · guest count · currency · location · date · priorities), generate button, result panel with category bars, summary, allocation list, upgrade prompt if quota exhausted.

AI Vendor Matchmaking

CLI-08

<https://dashboard.gigresource.com/ai-tools/vendor-matchmaking>

AI suggests matching pros based on requirements.

Elements: Hero card, form (event type · budget · guest count · location · date · requirements textarea), find matches button, match cards with reasoning and score.

AI Review Writer

CLI-09

<https://dashboard.gigresource.com/ai-tools/review-writer>

AI drafts review text based on inputs.

Elements: Hero, form (professional name · service type · event · tone pills · star rating · highlights textarea), compose button, review preview box, edit/copy actions.

Profile Settings

CLI-10

<https://dashboard.gigresource.com/client/profile>

Personal info, password, notifications.

Elements: Sidebar tab nav (Basic · Address · Company · Social · Notifications · Security · Account), avatar card with upload, form grid per tab, danger zone (account deletion).

Membership Plans

CLI-11

<https://dashboard.gigresource.com/app/membership-plans>

Browse / upgrade subscription tier.

Elements: Three-tier comparison cards (Starter · Professional · Elite), feature checklist, contract length tabs (6 / 12 / 18 months), 15% off badge on 18-month.

Membership History

CLI-12

<https://dashboard.gigresource.com/app/membership-plans/history>

Past subscription timeline.

Elements: Table list: plan · started · expired · status · invoice link · payment method.

Payment History

CLI-13

<https://dashboard.gigresource.com/app/payments/history>

All transactions (memberships, posts, AI agreements).

Elements: Filter strip (type · date), transactions table with download invoice action.

Payment Success

CLI-14

<https://dashboard.gigresource.com/app/payments/success>

Post-Stripe-checkout success page.

Elements: Big checkmark, transaction summary, receipt download, return-to-dashboard CTA.

Payment Cancelled

CLI-15

<https://dashboard.gigresource.com/app/payments/cancel>

Stripe checkout cancelled.

Elements: X icon, "no charge made" message, retry CTA, back link.

Agreement Detail

CLI-16

<https://dashboard.gigresource.com/app/agreements/{id}>

View AI-generated contract with e-signature.

Elements: Agreement title + meta, full content, signature blocks (both parties), download PDF, cancellation request button.

Pages used by supplier / vendor / gig-pro to manage bookings, gigs and earnings.

Dashboard Home

PRO-01

<https://dashboard.gigresource.com/professional/dashboard>

Earnings overview, active proposals, recent gigs, messages, reviews.

Elements: Same navbar / sidebar shell as client (coral-themed icons), revenue stat cards, upcoming gigs strip, lead status counts (won/lost/pending), recent messages, ratings widget, AI Review Writer quick link.

Gigs / Job Feed

PRO-02

<https://dashboard.gigresource.com/professional/gigs>

Available gigs (jobs) the pro can bid on.

Elements: Filter pills (category · budget · location · date · urgency), gig cards with client avatar + event details + budget + bids count + "Submit Proposal" button, sticky filters bar.

Gig Detail

PRO-03

<https://dashboard.gigresource.com/professional/gigs/{id}>

Single gig page with proposal-submit form.

Elements: Gig header (client · event type · location · date · budget · guest count), full description, requirements list, proposal form (price · message · timeline), existing proposals count.

My Proposals

PRO-04

<https://dashboard.gigresource.com/professional/proposals>

All proposals submitted by this pro with status.

Elements: Status tab strip (Pending · Accepted · Declined · Expired), proposal cards with gig info + submitted price + status badge + actions, "follow up" button.

Messages — Inbox

PRO-05

<https://dashboard.gigresource.com/professional/messages>

Conversations with clients.

Elements: Same two-pane chat UI as client side.

Message Thread

PRO-06

<https://dashboard.gigresource.com/professional/messages/{id}>

Single conversation.

Elements: Same as client side, with client info sidebar.

Reviews

PRO-07

<https://dashboard.gigresource.com/professional/reviews>

All received reviews with response option (Elite flag).

Elements: Average rating + breakdown chart, filter pills, review cards (client avatar · star rating · text · date · respond button · flag for admin button — Elite only).

Earnings Overview

PRO-08

<https://dashboard.gigresource.com/professional/earnings>

Money dashboard — totals + chart + payouts.

Elements: Big revenue number, time-range picker, line chart of earnings, payout schedule, pending balance card, withdrawal CTA.

Transactions

PRO-09

<https://dashboard.gigresource.com/professional/transactions>

Full ledger of bookings/payouts/fees.

Elements: Date-range + type filter, table (date · type · client · amount · platform fee · net · status), export CSV / PDF buttons.

Profile Settings

PRO-10

<https://dashboard.gigresource.com/professional/profile>

Public profile editor — what clients see.

Elements: Cover banner upload + avatar (Freelancer.com style), tabs (Basic · Services · Pricing · Portfolio · Certifications · Verification · Notifications · Security · Account), service categories multi-select, hourly rate, video introduction (Pro/Elite tiers).

Pages for influencer-program members tracking referrals + commissions.

Dashboard Home

INF-01

<https://dashboard.gigresource.com/influencer/dashboard>

Performance overview.

Elements: Top stats (total earned · this month · pending payout · click count), unique referral link with copy button, recent referrals strip, tier-progress widget, marketing assets download.

Referrals

INF-02

<https://dashboard.gigresource.com/influencer/referrals>

Full list of referrals with status + commission.

Elements: Filter (status · date), referrals table (referred user · sign-up date · plan purchased · commission · status pill).

Payouts

INF-03

<https://dashboard.gigresource.com/influencer/payouts>

Payout history + bank/payment method settings.

Elements: Pending balance card, payout-method form, payout history table (date · amount · method · status).

Administrative pages for platform owners. Uses NobleUI Bootstrap template with custom branding.

Dashboard Home

ADM-01

<https://dashboard.gigresource.com/dashboard>

Platform-wide stats and recent activity.

Elements: NobleUI top bar + collapsible sidebar (role-coloured icons), KPI cards (users · revenue · gigs · bookings), revenue chart, recent users, latest bookings, system alerts.

Events Mgmt

ADM-02

<https://dashboard.gigresource.com/app/admin/events>

View / moderate all events.

Elements: Search + filter, datatable (title · client · date · status · actions), bulk-action toolbar, status modals.

Bookings Mgmt

ADM-03

<https://dashboard.gigresource.com/app/bookings>

All platform bookings.

Elements: Datatable with filters, status pills, refund / dispute actions.

Categories

ADM-04

<https://dashboard.gigresource.com/app/admin/categories>

Manage event categories used across the platform.

Elements: Card list with category image · name · slug · active toggle · sort order · edit/delete, "Create Category" button.

New Category

ADM-05

<https://dashboard.gigresource.com/app/admin/categories/create>

Create category form.

Elements: Form (name · slug · icon emoji · color · description · image upload · active toggle · sort order).

Edit Category

ADM-06

<https://dashboard.gigresource.com/app/admin/categories/{id}/edit>

Edit existing category.

Elements: Same as Create with current values pre-filled.

AI Agreements

ADM-07

<https://dashboard.gigresource.com/app/agreements>

All generated AI agreements.

Elements: Datatable (parties · status · created · cancellation · actions), filter strip.

Agreement Log

ADM-08

<https://dashboard.gigresource.com/app/agreement-log>

Audit log of agreement actions.

Elements: Datatable (timestamp · agreement · actor · action · IP).

Membership Plans Admin

ADM-09

<https://dashboard.gigresource.com/app/admin/membership-plans>

Create / edit Starter / Pro / Elite tiers.

Elements: Plan cards with edit · feature checklist editor · pricing matrix · activation toggle.

Users

ADM-10

<https://dashboard.gigresource.com/app/users>

All platform users.

Elements: Datatable (avatar · name · email · roles · status · last login · actions), bulk role assignment, ban / activate.

Roles

ADM-11

<https://dashboard.gigresource.com/app/roles>

Role management.

Elements: Role cards with name · users count · permissions count · edit, create-role modal.

Permissions

ADM-12

<https://dashboard.gigresource.com/app/permissions>

Permission catalog.

Elements: Permission table (name · group · description · used-by-roles count).

Deletion Requests

ADM-13

<https://dashboard.gigresource.com/app/admin/deletion-requests>

Approve / cancel account deletions.

Elements: Card list with user info · reason · requested date · grace-period countdown · approve / cancel buttons.

Activity Logs

ADM-14

<https://dashboard.gigresource.com/app/admin/activity-logs>

Audit trail across the platform.

Elements: Datatable (timestamp · actor · action · model · IP · user-agent), date-range + actor filter.

AI Chatbot Logs

ADM-15

<https://dashboard.gigresource.com/app/admin/chatbot-logs>

Inspect chatbot conversations.

Elements: Conversation list with user · last message · message count · timestamp, click to open thread view.

Chatbot Log Thread

ADM-16

<https://dashboard.gigresource.com/app/admin/chatbot-logs/{id}>

Single chatbot conversation transcript.

Elements: User → AI bubbles, token usage, response time, flag inappropriate.

Influencers Admin

ADM-17

<https://dashboard.gigresource.com/app/influencers>

All influencer-program members.

Elements: Datatable (avatar · name · referrals · earnings · tier · status), tier badges.

Influencer Payouts

ADM-18

<https://dashboard.gigresource.com/app/influencers/payouts>

Approve / process payouts.

Elements: Pending queue cards, batch-approve, payout history.

Professional Verifications

ADM-19

<https://dashboard.gigresource.com/app/admin/verifications>

Review pro verification docs.

Elements: Queue cards with pro info + 3 badge sections (trade license · liability · workers comp) · uploaded doc previews · approve / reject buttons.

FAQ Management

ADM-20

<https://dashboard.gigresource.com/app/admin/faqs>

Add / edit / sort FAQ entries.

Elements: List with drag-handles for sort order, inline edit modal, category dropdown, active toggle.

Policy Pages

ADM-21

<https://dashboard.gigresource.com/app/admin/policies>

Edit policy page content.

Elements: Card list (Privacy · AI Agreement · Payment · Cancellation), each with last-updated · edit button.

Edit Policy

ADM-22

<https://dashboard.gigresource.com/app/admin/policies/{id}/edit>

Rich-text editor for policy content.

Elements: WYSIWYG editor (TinyMCE or similar), publish button, version note input.

Blog Posts Admin

ADM-23

<https://dashboard.gigresource.com/app/admin/blog/posts>

Manage blog content.

Elements: Datatable (image · title · category · author · status · views · actions), filter + create-post button.

New Blog Post

ADM-24

<https://dashboard.gigresource.com/app/admin/blog/posts/create>

Create blog post form.

Elements: Title, slug auto-fill, category dropdown, featured image upload, rich-text body editor, meta title / description, publish / draft toggle.

Edit Blog Post

ADM-25

<https://dashboard.gigresource.com/app/admin/blog/posts/{id}/edit>

Edit existing post.

Elements: Same as Create with prefill.

Blog Categories Admin

ADM-26

<https://dashboard.gigresource.com/app/admin/blog/categories>

Manage blog categories.

Elements: Inline-edit card list (name · slug · post count · active toggle), create-category form.

Admin Profile

ADM-27

<https://dashboard.gigresource.com/app/admin/profile>

Admin user own profile editor.

Elements: Same tabbed profile layout as client/pro, admin-only badge.

Settings — Payments

ADM-28

<https://dashboard.gigresource.com/app/admin/settings/payments>

Stripe / payment gateway config.

Elements: Form with Stripe publishable + secret keys, test/live mode toggle, webhook URL display.

Settings — OpenAI

ADM-29

<https://dashboard.gigresource.com/app/admin/settings/openai>

OpenAI API config for AI tools.

Elements: API key input (masked), model dropdown, max tokens, temperature, "configured" badge, test connection button.

Settings — reCAPTCHA

ADM-30

<https://dashboard.gigresource.com/app/admin/settings/recaptcha>

reCAPTCHA site / secret keys.

Elements: Version dropdown (v2 / v3), site key + secret key inputs, enable toggle.

Settings — Chatbot

ADM-31

<https://dashboard.gigresource.com/app/admin/settings/chatbot>

AI chatbot widget toggle + system prompt.

Elements: Enable toggle, system prompt textarea, message limit input, allowed roles.

Settings — Account Del

ADM-32

<https://dashboard.gigresource.com/app/admin/settings/account-deletion>

Account-deletion grace period config.

Elements: Grace period days input, soft-delete vs hard-delete radio, email template editor.

Conversations (Admin)

ADM-33

<https://dashboard.gigresource.com/app/chat>

View all platform conversations.

Elements: Same two-pane chat UI, with admin overlay actions (warn · suspend · export).

Custom branded pages shown when something goes wrong. Designer should mock up all variants.

404 — Page Not Found

ERR-01

[https://dashboard.gigresource.com/\(any-bad-url\)](https://dashboard.gigresource.com/(any-bad-url))

Show when URL doesn't exist.

Elements: 🤖 emoji, eyebrow pill "404", title "Missing in action", tagline, 6 helpful nav links (Browse · Categories · How It Works · FAQ · Blog · About), main "Back to Home" CTA.

500 — Server Error

ERR-02

[https://dashboard.gigresource.com/\(server-error-state\)](https://dashboard.gigresource.com/(server-error-state))

Generic server failure.

Elements: 🛠️ emoji, reassuring message, back-home + browse-pros CTAs.

403 — Forbidden

ERR-03

[https://dashboard.gigresource.com/\(forbidden-route\)](https://dashboard.gigresource.com/(forbidden-route))

User authenticated but lacks permission.

Elements: 🚫 emoji, "no access" message, auth-aware CTAs (Dashboard if logged in, Log in otherwise).

401 — Unauthorized

ERR-04

[https://dashboard.gigresource.com/\(auth-required\)](https://dashboard.gigresource.com/(auth-required))

Requires login to access.

Elements: 🗝️ emoji, login + register CTAs.

419 — Session Expired

ERR-05

[https://dashboard.gigresource.com/\(csrf-token-expired\)](https://dashboard.gigresource.com/(csrf-token-expired))

CSRF token aged out (common Laravel state).

Elements: ⌚ emoji, "session expired" message, refresh + log-in-again CTAs.

429 — Too Many Requests

ERR-06

[https://dashboard.gigresource.com/\(rate-limited\)](https://dashboard.gigresource.com/(rate-limited))

Rate-limit triggered.

Elements: 🚫 emoji, "slow down" message, try-again + back-home CTAs.

503 — Maintenance

ERR-07

[https://dashboard.gigresource.com/\(maintenance-mode\)](https://dashboard.gigresource.com/(maintenance-mode))

Site temporarily down for maintenance.

Elements: 🚧 emoji, "we're tuning up" message, retry button.

Appendix — Brand & Tokens

Reference values to keep designs aligned with the existing live styling.

Brand Colours

Primary blue: #3b82f6 · **Accent purple:** #8b5cf6 · **Warm coral:** #ff7a59 · **Success green:** #22c55e
· **Danger red:** #ef4444

Backgrounds: bg-dark #0b0f1a · bg-card #151d35 · bg-section #0f1629

Typography

Body font: Inter (weights 400/600/700/800)

Hero h1: 3rem clamp(2rem, 5vw, 4rem), letter-spacing -0.02em, font-weight 900

Section h2: 2rem, font-weight 800

Card h3: 1.1rem, font-weight 700

Audience Colour Coding (used on filter chips, badges, tier accents)

Clients: blue → purple gradient

Professionals / Suppliers: coral → amber gradient

Influencers: purple → indigo gradient

All Users: green → teal gradient

Membership Tier Visual Tokens

Starter: green accent · "Digital Business Card" feel

Professional: blue/purple accent · "Active Bidder"

Elite: gold gradient · "Featured Partner" with crown-style badge

Imagery Direction

All banner / cover / category-tile imagery should be **wedding / elegant-event** focused (couples, ceremonies, receptions, florals, rings, bouquets, reception table setups). **Avoid:** club scenes, dance parties, theatre stages, concerts. Real candid moments preferred over staged stock.
